

ACKNOWLEDGEMENTS

Bless to God for giving the author strength and chance to complete the Final Year Project (FYP) and this dissertation report. The author would like to extend his greatest gratitude to the following people for their contribution and cooperation during the FYP process.

- Supervisor: Dr. Ahmed Maher Said Ali for his supervision plus giving freedom to learn throughout the project. Thank you for your technical expertise advices, information, materials, support and experiences as well.
- UTP staff: All of UTP staffs that have helped a lot in giving information in Wind Tunnel Experiment
- Friends: All people who help the author in making this project possible to finish, including the support, advice and encouragement.
- Family: For their moral support and praying.

The author would like to thank all people who involve in undergoing this project.
