

DEDICATION

*For the people in my life who mean the most to me:
My mother, my wife and my daughter*

ACKNOWLEDGEMENT

I thank Assoc. Prof. Dr. Zakaria Man for accepting me into his research group, his patience especially during arduous rewrites, and teaching me all that I know about experimental chemistry.

I would also like to thank past and present members of the PETRONAS ionic liquids research group for all their help and useful discussion over the years.

Finally, I thank my wife for moving to Tronoh, supporting me throughout this endeavour, being there, and above all else, being my wife; together we always know where our towel is. I would also like to thank my mother and family who always supported me no matter what I wanted to do.
