

## ACKNOWLEDGEMENTS

I would like to convey my gratitude to En. M Sabri B M Aboo Tahir (Industry Advisor) and En. Azamudin Badri@Harun (Academic Supervisor) for their guidance, ideas, encouragements and support throughout the project period. Without their assistance, my project conceptualization and documentation would not have been completed and successful as this very moment.

Nevertheless, I would like to thank my parents Mr. Naleyah Sinnayah and Mrs. Selva Rane A. Rasiya, family and friends for all the help and support given to me all these while. I truly appreciate their motivation and encouragement which kept me moving forward towards the successful completion of this project work.
