

ABSTRACT

ACKNOWLEDGEMENTS

This Capstone Consultancy Project was supported/partially supported by University Technology Petronas (UTP). I would like to thank both my Academic Supervisor [AP. Dr. Mohd Yusoff Ibrahim] and industry advisor [Mdm. Kam Wai Peng] who provided insight and guidance that greatly assisted the project.

Dr. Yusoff helped me in defining the scope of this project and highlighted to me the academic requirement in order to support my research proposal.

I truly appreciate the time spent by Mdm. Kam to be my industry advisor where she had reviewed the research topic, problem statement in my capstone project, ensuring this project is relevant, practical to the industry.
