

LIST OF TABLES

Table 2-1	The functions of fiber and matrix in a composite	18
Table 2-2	Various aspects and sources of fatigue life scatter	29
Table 3-1	Types of problem modeled and solved using NN	33
Table 4-1	Dimensions of test specimens of Materials I, II and III	62
Table 4-2	Combinations of stress ratios used as training sets.....	64
Table 5-1	NN parameters used in the modeling study	71
Table 5-2	The MSE of the fatigue life prediction results of Material I for various training sets	74
Table 5-3	The MSE of the fatigue life prediction results of Material II for various training sets	79
Table 5-4	The MSE of the fatigue life prediction results for Material III.....	86
Table 5-5	Comparison on the MSE values obtained from previous and current studies	93
